

# GunnHacks 7.0

Virtual, February 13-14, 2021  
*Henry M. Gunn Senior High School, Palo Alto, CA*

## Sponsorship Packet

## Who are we?

We are a team of dedicated high school students from Henry M. Gunn Senior High School. We are passionate about computer science education, and we strongly believe that hackathons are the best way to spread the hacker culture.

## About

GunnHacks is Gunn High School's annual, student-run hackathon. As the seventh iteration of this event, GunnHacks 7.0 will bring together over 200 student developers from across the country for an online, weekend-long, and intimate high school hackathon.

We emphasize learning through doing, and welcome students regardless of programming experience. Your support will help us provide our hackers with mentors, workshops, and/or prizes.

## Why sponsor?

A high school hackathon may not offer the same recruitment opportunities as a collegiate hackathon, but sponsors will still be able to form relationships with the coders of the future. Many attendees are first-time coders, so by promoting your product/API/tool, you will be able to make a large impact on what they learn.

## How can you help?

- Donate money to fund logistics, prizes, and other necessities.
- Send a developer along to mentor and inspire students.
- Host a workshop, activity, or another event.
- Give out swag to promote your brand (lanyards, stickers, water bottles, shirts, etc).
- ... and more!

## Get Started!

GunnHacks accepts sponsorships of all sizes. For cash sponsorships, please refer to the table below for a rough idea of the benefits we provide.

	BRONZE \$500+	SILVER \$1000+	GOLD \$1500+	PLATINUM \$2000+
Send developers / mentors	⦿	⦿	⦿	⦿
Dedicated message on social media	⦿	⦿	⦿	⦿
Sponsor logo on website	⦿	⦿	⦿	⦿
Sponsor logo on our T-shirt	⦿	⦿	⦿	⦿
Present a special prize		⦿	⦿	⦿
Dedicated Discord channel		⦿	⦿	⦿
Send recruiters			⦿	⦿
